Has received a donation towards
Pawsitive Patients

Pawsitive Match has several "Pawsitive Patients" – dogs and cats currently in our care who have required expensive medical treatment.

Meet one of our patients, Regeana: We received an urgent call about a puppy that was found laying in a ditch suffering. When our rescuer picked her up, it was unknown how long she had been laying there. She cried when she was moved but still greeted everyone with a wagging tail. Upon assessment we discovered multiple pelvic fractures, a deep puncture wound in the leg, as well as a broken leg. She required extensive surgery but is now recovering in a loving foster home, and will be available for adoption.

Thank you for your support!

*Merry Christmas from all of
